BIOELECTROCHEMISTRY AND BIOENERGETICS

Vol. 20 Nos. 1–3 December 1988

(J. Electroanal. Chem., Vol. 254 Nos. 1–3)

CONTENTS

Bioelectroanalytical sensors and analytical problems in their application (Review)
G. Nagy and E. Pungor (Budapest, Hungary) 1

Electrosynthesis and electroanalysis using *Clostridium sporogenes*
E.W. James, D.B. Kell, R.W. Lovitt and J.G. Morris (Aberystwyth, Great Britain) 21

Electrochemical study of the metal ion coordination of bioactive molecules
K. Burger (Szeged, Hungary) 33

Scanning curves and kinetics of the acetylcholine/acetylcholine receptor hysteresis
E. Neumann, E. Boldt, B. Rauer, H. Wolf (Bielefeld, F.R.G.) and H.W. Chang (New York, NY, U.S.A.) 45

Electroporation: the population distribution of macromolecular uptake and shape changes in red blood cells following a single 50 μs square wave pulse
J.G. Bliss, G.I. Harrison, J.R. Mourant, K.T. Powell and J.C. Weaver (Cambridge, MA, U.S.A.) . 57

Properties of cardiolipin and functional implications for cytochrome oxidase activity
D. Marsh (Göttingen, F.R.G.) and G.L. Powell (Clemson, SC, U.S.A.) 73

On the audio- and radio-frequency dielectric behaviour of anchorage-independent, mouse L929-derived LS fibroblasts
C.L. Davey, D.B. Kell, R.B. Kemp and R.W.J. Meredith (Aberystwyth, Great Britain) 83

Facilitation of the permeability of phospholipid vesicles to Tl^+ by prothrombin
M.F. Lecompte and I.R. Miller (Rehovot, Israel) 99

Amino acid transport through supported liquid membranes: mechanism and its application to enantiomeric resolution
T. Yamaguchi, K. Nishimura, T. Shinbo and M. Sugiura (Tsubuka, Japan) 109

Polarographic and microcalorimetric study of the interaction between glutathione and amoxycillin
J.A. Squella, G. Benavente (Santiago, Chile), B. Gallo (Bilbao, Spain), S. Paredes (Brussels, Belgium) and L.J. Nuñez-Vergara (Santiago, Chile) 125

Effects of electric fields and currents on living cells and their potential use in biotechnology: a survey
J. Teissié (Toulouse, France) 133

Generation of cell processes in a high frequency electric field
L.B. Margolis and S.V. Popov (Moscow, U.S.S.R.) 143

Correlation between physical parameters in electrofusion and electroporation of protoplasts
D.V. Zhelev, D.S. Dimitrov and P. Doinov (Sofia, Bulgaria) 155

Potential-controlled morphological change and lysis of HeLa cells cultured on an electrode surface
M. Yaoita, H. Shinohara, M. Aizawa, Y. Hayakawa, T. Yamashita (Tokyo, Japan) and Y. Ikariyama (Tokorozawa, Japan) 169

New trends in electrochemical analysis of nucleic acids
E. Paleček (Brno, Czechoslovakia) 179

Transduction of redox Gibbs free energy into modulated electrochemical work
F. D'Alba and S. Di Lorenzo (Palermo, Italy) 195

Proton–magnesium exchange during the blue–purple transition of bacteriorhodospin
K. Tsuji and B. Hess (Dortmund, F.R.G.) 203

How a soluble enzyme can be forced to work as a transport system: theoretical interpretation
J.-C. Vincent, S. Alexandre and M. Thellier (Mont Saint Aignan, France) 215

(continued on p. 3 of cover)

Contents (*continued*)

An electrochemical approach to chemically driven proton pumps. The effects of secondary reactions, uncouplers, inhibitors and ionophores
R. Naumann (Darmstadt, F.R.G.) 223

Electrooptical study of purple membrane fragments in the presence of diamines
S.G. Taneva, G. Todorov and I.B. Petkanchin (Sofia, Bulgaria) 241

A model for regulation of H^+-ATPase functioning in aerobical bacteria by membrane hyperpolarization caused by redox chain activation when utilizable sugars are applied
A.G. Vardanian (Yerevan, U.S.S.R.) 249

Stoichiometry of the binding of Ca^{2+} on the inner and the outer monolayers of sonicated vesicle bilayers
E.A. Disalvo and L.S. Bakás (La Plata, Argentina) 257

Photocurrent transients from the semiconductor–protein interface
J.J. Ramsden, R. Toth-Boconádi and L. Keszthelyi (Szeged, Hungary) 269

Short communications

Electrostimulation during fermentation
H.-H. Grosse, E. Bauer and H. Berg (Jena, G.D.R.) 279

Present knowledge in the field of lung surfactant electrochemistry
E. Ladanyi (Göttingen, F.R.G.) 287

Preliminary note

The influence of the ionic strength on enzyme solubilization in water-in-oil microemulsions
D. Bratko, A. Luzar (Ljubljana, Yugoslavia) and S.H. Chen (Cambridge, MA, U.S.A.) 291

Author index 297

Subject index 298

JOURNAL OF ELECTROANALYTICAL CHEMISTRY AND INTERFACIAL ELECTROCHEMISTRY and BIOELECTROCHEMISTRY AND BIOENERGETICS

Publication schedule for the 1989 subscription (please note that Vols. 255–257, belonging to the 1989 subscription, appeared in 1988)

Month	N (1988)	D (1988)	J	F	
J. Electroanal. Chem.	255/ 1+2 256/1	256/2 257/ 1+2	258/1 258/2	259/ 1+2	The publication schedule for further issues will be published later.
Bioelectrochem. Bioenerg.				275/1	

Subscription information

The *Journal of Electroanalytical Chemistry and Interfacial Electrochemistry* (including *Bioelectrochemistry and Bioenergetics*) appears semi-monthly. In 1988, 22 volumes will appear. Subscription price for 1988 (Volumes 233–254): Sfr.4620.00 (approx. US$3422) incl. postage. Subscription price for Bioelectrochemistry and Bioenergetics *only* (Vols. 253 and 254): Sfr.660.00 (approx. US$489) incl. postage. Subscribers in the U.S.A. and Canada receive their copies by air mail. Additional charges for air mail to other countries are available on request. For advertising rates apply to the publisher. Claims for issues not received should be made within three months of publication of the issues. If not, they cannot be honoured free of charge.

Customers in the U.S.A. and Canada wishing information on this and other Elsevier journals should contact the Elsevier Science Publishing Company Inc. Journal Information Center, 52 Vanderbilt Avenue, New York, NY 10017. Tel.: (212) 916-1250.

Abstracts and/or contents lists of this journal are published in: Biological Abstracts, Biosciences Information Services, Chemical Abstracts, Current Contents, Electroanalytical Abstracts, Excerpta Medica, Engineering Index.

Subscriptions should be sent to:

ELSEVIER SEQUOIA S.A., P.O. Box 564, CH-1001 Lausanne 1, Switzerland

Printed in The Netherlands
